

The ERW-7 enables the connection between Alinco radio equipment and a PC to utilize the editor software.

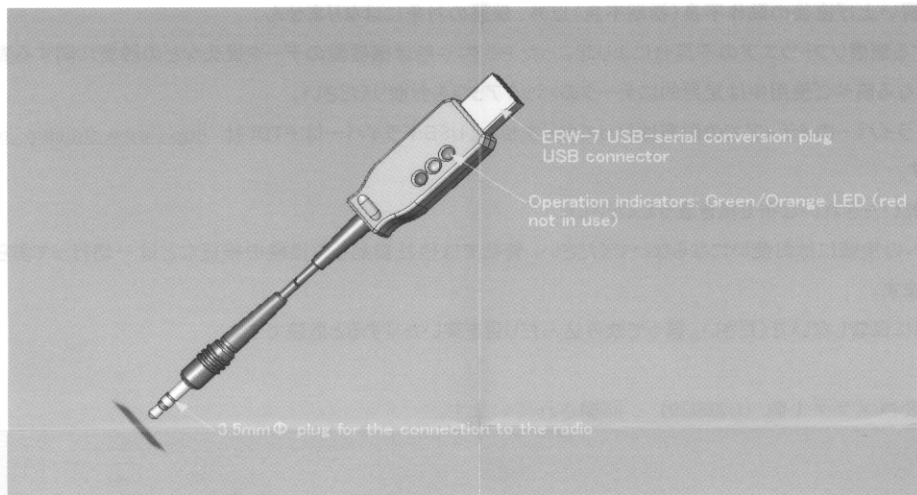

**[Before using the product]**

ERW-7 requires the installation of a driver software. Please download this driver software from Alinco's website and install it to your PC. Download: Alinco.com > Products > Accessories > ERW-7

**[How to use the product]**

Please refer to the instructions in the manual or the software of your radio for operating procedures.

- \* The green LED illuminates when the plug is connected to the USB port on your PC.
- \* The green, red and orange LEDs flash while transferring the data.
- \* Never disconnect the plug while transferring the data. It may cause damage to the data and/or the radio. If it happens, please reset the radio and retry.

**[Caution]**

- \* This product is considered a consumer item. Other than an initial defect, this product is not subject to factory-warranty.
- \* Alinco declines any damage claims to the software and/or the hardware of your PC by the use of this product and/or Alinco's utility software. Please be sure to back-up the data from your PC from time to time.
- \* Alinco distributes the driver software through the web-site only.  
The USB driver is the property of FTDI <http://ftdichip.com/> for free distribution.
- \* Please use a clean dry cloth to clean the connector when necessary.
- \* This product is designed for the use with Alinco's radio products only.  
Alinco does not have any information regarding the compatibility of use with other manufacturers' devices.
- \* Keep this product out of the reach of children. Small parts may cause suffocation and could be hazardous if it comes in contact with the eyes.

**[Standard accessory]**

3.5 $\Phi$ -to-2.5 $\Phi$  conversion plug (UZ0029): Use this conversion plug as necessary to configure ERW-7 to different Alinco products.
