EVOKE-3

The World's Most Advanced Digital Radio

From the world leaders in DAB radio comes EVOKE-3, the most advanced digital radio in the world. Packed with features to make listening more pleasurable and more convenient, EVOKE-3 combines innovation with class-leading sound quality.

EVOKE-3's new features are easily accessible via an intuitive menu system and eight-line graphical display. View Electronic Programme Guide listings for seven days, choose the programmes you like, set multiple record times and EVOKE-3 will record over 30 hours of radio to SD memory card.* Or play MP3s from the SD card if you prefer. And if your DAB listening is interrupted you can pause and rewind live radio using the PURE ReVu™ feature.

Truly versatile, EVOKE-3 can be used to amplify your iPod or as an input to your hi-fi and its USB connector means it's easy to upgrade too. With support for all DAB standards, plus FM with RDS for locations where DAB is not yet available, EVOKE-3 works worldwide.

Designed in the UK

*Based on typical broadcast of 128 kbps recorded to 2GB SD card (card not included).

SnoozeHandle®

Touch-sensitive SnoozeHandle® snoozes the alarm and illuminates the display.

Broadcast Electronic Programme

Guide gives up to seven days programme information for participating stations, making it easy to pre-select and record the programmes you like.

Pause and rewind live radio for up to 40 minutes using the uniquely easy interface.

SD memory card for recording radio programmes, recording tracks or playing your MP3s.

Electronic Programme Guide
EPG, broadcast by participating DAB stations, gives programme times and information for up to seven days. Use it to set up to 20 record timers at the touch of a button.

SD Memory Cards
Record radio programmes or music tracks. Play MP3s from your collection.

Bedside Features
Up to 20 alarms and a sleep timer. Fall asleep to one station and wake up to another. Choose between radio, MP3 or tone alarms. Unique touch-sensitive SnoozeHandle®.

SD memory card slot

Source selection (DAB, SD card, FM or auxiliary input)

Additional features

Up to 20 alarms with station or tone setting.

Up to 20 tune-in or record timers for use with SD card or separate recording device connected via optical digital output.

Auxiliary input for iPod, MiniDisc, CD player or other device.

99 DAB & 24 FM presets.

MP3

Play MP3 files from your SD card. Wake up to a card full of your favourite MP3s, or to a single file followed by radio.

Add new features as they become available via USB. Copy recorded radio programmes to your PC or MP3 files from your PC to SD memory card.

RDS support for station name display on FM and RDS scrolling text.

Digital Output

Digital optical output for connection to a digital amplifier or to a MiniDisc recorder for timed external recordings.

Tri-Band

Support for all standard DAB frequencies as well as FM means that EVOKE-3 is a truly international digital radio.

CHARGEPAK™ AVAILABLE SEPARATELY

- Charges while connected to the mains
- Provides around 10 hours of ChargePAK-powered portable listening
- Easy to use – just “Fit and Forget”
- EVOKE-3 can also be used with six (standard or rechargeable) C cell batteries
